

31. (Amended) The film of claim [30] 27 wherein said cage structure comprises substituted or unsubstituted adamantane or substituted or unsubstituted diamantane.
32. An insulator comprising said low dielectric constant polymer of claim 21.
33. Cancel.
34. (Amended) The insulator of claim [33] 32 wherein said cage structure comprises substituted or unsubstituted adamantane or substituted or unsubstituted diamantane.
35. An integrated circuit comprising the layer of claim 26.
36. An integrated circuit comprising the film of claim 31.
37. An integrated circuit comprising the insulator of claim 34.

IN THE SPECIFICATION

Please amend the specification on page 4, lines 21-23 to replace lines 21-23 with the following:

“Brief Description of the Drawings”

“Figures 3A-B are structures of various polymers according to the inventive subject matter.

Figures 4A-B are synthetic schemes to produce various thermosetting monomers according to the inventive subject matter.”

SPECIFICATION OBJECTIONS

The Applicant notes the Examiner’s objections to specification page 4, lines 21-23. Appropriate corrections have been made herein and a marked up copy of page 4 is included with this response. Furthermore, a clean copy of page 4 is submitted herein to be entered into the record.
